## Our guarantee

Work Overseas works closely with companies and accredited agents carefully selected all over the world to offer you the best possible service. Here below what we can offer you as an a work placement agency:

- All the services detailed above.
- Companies have legal existence, checking their identity, as well as accommodations, checked by local agents.
- Cancellation from one of our companies is very unlikely. However should this happen, we will launch a new search very quickly.

- Connecting with other members of Work Overseas programs, when possible, or giving tips to meet friends.
- Saving time in your search (information, accommodation, company ... ). Information are centralized by our agency.
- Saving money as everything will be confirmed before your arrival and so you will not have to pay for accommodation and bills while looking for a position in a company.
- Support **on request**, during the whole duration of your stay.

## Our limits

Here below what we can't unfortunately control:

- A 100% perfect placement. As you will be in contact with colleagues, managers, roommates .... there are always things we can't control even if we do everything we can so your placement will be a success.
- Even if accommodation has been checked, in a reasonable way, we can't guarantee you will get on well with other roommates, neither they will clean the flat as you wish they would do. However we are always happy to assist when requested.
- All the tasks given by the company in details. You will be then directly linked to your employer and need to communicate with your managers. In case the company would ask additional hours, you would need to communicate with your team as well. However we are always happy to assist when requested.
- We can't visit all the companies. Some of them are visited regularly randomly. Agencies can only check companies thanks to pictures, internet search, telephone interview and recommendation(s).
- A quick and easy integration. Sometimes the first weeks can be difficult (friends missing, new environment ... ) You will need to be prepared to this but we will be here to assist.
- A change of placement. However we are always willing to try our best and support.

## Payment Conditions

- Pre online registration

- Program fees will be invoiced once your application has been accepted, before the placement search will start, and only if we think we'll be able to find suitable placement. Not refunded in case of cancellation from the candidate.
- Work Overseas is free to refuse the organization of an interview with the agency, if there are no placement possibilities.

## Payment Methods

- Agency fees are charged either by international bank transfer or by credit card.
